# **MATERIAL SAFETY DATA SHEET**

Date 14/7/2016

#### 1 IDENTIFICATION

Product Name Superway Delta-M Residual Insecticide

Chemical Name Deltamethrin
Chemical Class Pyrethroid
Hazchem Code not applicable
UN No not applicable

Dangerous Goods Code

Sub.Risk Class

Packaging Group not applicable

**EPG** 

Poison Schedule S5

Use A liquid insecticide concentrate for spray application.

#### **Physical Appearance and Properties.**

Appearance and Odour White appearance with no apparent odour

Boiling Point 100°C
Vapour Pressure As Water
Volatile Component Negligible
Flash point not applicable
Specific Gravity 1.01 at 20°C

Ingredients CAS No. g/l

Deltamethrin 52918-63-5 10g/l Propylene glycol 57-55-6 60 g/l Other inert ingredients not hazardous 930g/l

#### 11 HEALTH HAZARD DATA

Health effects.

#### **Acute:**

**Swallowed:** Product is harmful if swallowed. Symptoms include headache, dizziness,

drowsiness, nausea and vomiting.

**Eye** Can be irritating to eyes.

**Skin** Product is irritating to skin. Contact with skin, especially the face, may result

in initial stinging or burning sensations followed by numbness which may

persist for several hours.

**Inhalation** Avoid breathing spray. Inhalation of spray may cause transient irritation of

mucous membranes (nose throat and respiratory tract) for up to 24 hours.

**Chronic** Deltamethrin is not mutagenic or teratogenic.

#### **FIRST AID**

If poisoning occurs, contact a doctor or Poisons Information Centre (Telephone 131126) and follow the advice given. Provide a copy of this Safety Data sheet to Doctor if possible.

#### **SWALLOWED**

Wash out mouth with water and seek medical advice. If swallowed and more than 15 minutes from Hospital, induce vomiting, preferable using Ipecac Syrup APF.

**EYE** 

Immediately irrigate with plenty of water for at least 15 minutes.

Seek medical assistance.

**SKIN** Remove contaminated clothing and shoes. Wash affected areas of skin with

plenty of soap and water. Seek medical assistance if irritation persists.

Launder contaminated clothing before re-using.

#### **INHALATION**

Remove patient to fresh air and allow them to rest and keep warm. Loosen clothing.

#### ADVISE TO DOCTOR

Treat symptoms. Skin contact by deltamethrin must be carefully cleaned with cleansing milk. Symptoms can be alleviated in part by the application of a moisturising cream or anaesthetic ointment.

#### **TOXICITY DATA:**

**Animal toxicity** 

(product) Oral LD50 (mg/kg) >10,000 Species: Rat

Dermal LD<sub>50</sub> (mg/kg) >10,000 Species: Rat

(deltamethrin) Oral LD<sub>50</sub> (mg/kg) 130 Species: Rat

Dermal LD50 (mg/kg) >2,000 Species: Rabbit Inhalation LC50 (mg/L) 2.2 (4 hour) Species: Rat Eye irritation Slight irritant Species: Rabbit Skin irritation Non irritating Species: Rabbit Sensitisation Not a sensitiser Species: Guinea

Pig

**Environmental**/ LC<sub>50</sub> (96-h) fish 0.001 – 0.01 mg/L **Ecological** LD<sub>50</sub> (duck) >5,000 mg/kg

LD<sub>50</sub> (quail) >10,000 mg/kg

Deltamethrin is highly toxic to fish and aquatic organisms.

Deltamethrin is persistent in the environment. It is destroyed by soil microorganism and does not leave residues in the environment or build

up in the food chain.

#### 111 PRECAUTIONS FOR USE

## **Exposure standards**

No exposure standard has been assigned by the National Occupational Health and Safety Commission (Worksafe Australia). A general recommendation for occupational exposure to deltamethrin is 0.28mg/m<sub>3</sub>. The manufacturer of propylene glycol recommends a TWA exposure limit of 10-mg/m<sub>3</sub> mist (400-ppm vapour).

## **Engineering controls**

No special ventilation is required, as this product is not volatile. Control process conditions to avoid contact. Use local exhaust ventilation while spraying, if possible.

## **Personal protection**

Eyes Wear face shield

**Clothing** When preparing spray and using the prepared spray wear cotton overalls

buttoned to the neck and wrist and a washable hat.

**Gloves** Elbow length PVC gloves

**Respiratory** Wear a suitable respiratory mask while spraying.

**General** Do not eat drink or smoke until after washing. Wash thoroughly after

handling. Launder all contaminated clothing including gloves and face shield.

#### IV SAFE HANDLING INFORMATION

Storage and transport.

Keep Out of reach of children.

Avoid Iron and alloys.

Store in closed original, container in a dry, well ventilated area, as cool as possible, out of direct sunlight. Store in locked room or place away from children, animal's food foodstuffs, seed and fertilisers. Protect from frost.

This product is not classified as a Dangerous Good under the Australian code for the transport of Dangerous Goods by Road and Rail.

#### SPILLS AND DISPOSALS

Dealing with spills and disposals may result in the potential for increased personal exposure. During such operations it is recommended that the following protective clothing be worn.

Cotton overalls buttoned to the neck and wrist.

Elbow length PVC gloves.

Face shield and goggles.

Prevent spills from entering drains, sewers and any body of water. Contain and absorb with sand, earth or inert absorbent. Scoop or shovel into sealable containers for disposal.

#### WASTE DISPOSAL METHODS

Triple pressure rinse containers before disposal. Add rinsing to spray tank. Do not dispose of undiluted chemicals on site. Break, crush or puncture and bury the empty containers in the local authority landfill. If not available, bury the containers under 500mm in a disposal pit specifically set up for this purpose clear of waterways, vegetation and roots.

### Fire/Explosion Hazard.

Water spray, carbon dioxide, foam, dry chemical. Do not use a water jet from a hose.

Heating/combustion will generate oxides of carbon and nitrogen, and other irritant and toxic fumes. Firefighters should wear full protective clothing and self-contained breathing apparatus. Do not release contaminated water into the environment. Keep intact containers cool by spraying with water.

Stable under normal conditions. Not known to produce hazardous reactions. Avoid oxidising agents, strong acids and alkalis.
